

Sami Austin | Front End Software Engineer | Denver, CO

928-830-4608 | samicaustin@gmail.com | github.com/samicaustin | linkedin.com/in/samicaustin

I am a front end web developer devoted to lifelong learning who creates applications and sites that are beautiful, impactful, and user-centered.

Software Engineering Skills

Languages: JavaScript, React, Java/C#, jQuery, Node, Express, HTML, CSS

Deployment: Git, GitHub, Heroku, Command Line

Databases: SQL and MongoDB

Methods: Wireframing, User Stories, Responsive, Object-Oriented, Functional Programming

Web Development Experience

General Assembly, Denver, CO

Software Engineering Immersive Student, Mar 2019 - June 2019

- Devoted over 400 hours to dynamic, professional learning over the course of 12 weeks.
- Engaged in 40+ hours of extended UX/UI Design and Computer Science coursework.
- Designed and developed five projects both independently and collaboratively, including:
 - *In Her Shoes*: An informative quiz app that highlights workplace gender discrimination using jQuery, OOP, and CSS.
 - *DreamSpace*: A full-stack app that produces dream interpretations using user authentication, MVC patterns, model relationships, and MongoDB.
 - *Queer Rex*: A full-stack app built to support queer voices in media that manages data from an API and SQL and uses a Java back end and a React front end.

Experience

Winslow Unified School District, Winslow, AZ
